

Training Opportunities

Elements of Effective Practice (EEP)

This training will cover best practices for mentor program design, management, operations, and evaluation. Content provides school, community, and faith-based teams with tools to design a quality mentoring program based on MENTOR: The National Mentoring Partnership's Elements of Effective Practice for Mentoring™. This training also provides a solid foundation of knowledge regarding mentoring best practices for recruitment, screening, training, matching and initiating, monitoring and support, and closure.

Screening Applicants for Effectiveness (SAFE)

The Screening Applicants for Effectiveness (SAFE) training helps evaluate current methods and offer suggestions for strengthening mentoring program practices. The workshop focuses on characteristics of child predators, the grooming process, and red flags that will cue programs to take a closer look at potential mentors and ensure they are the right fit. Participants take away tools and approaches for the screening process that range from first contact with a potential mentor until long after the match is made.

Trauma 101 & Recovery

Trauma-informed mentoring is an approach to engaging youth in mentoring relationships with histories of trauma that recognizes the presence of trauma symptoms and acknowledges the role that trauma has played in their lives. This training will cover how trauma affects youth, what trauma informed care is, how to create safe environments for youth, and ways to avoid re-traumatizing practices.

Askable Adults Matter

The Askable Adults Matter training was developed to help youth-serving professionals and community members become more approachable and knowledgeable in order to address basic questions and refer youth for reproductive health care when needed.

2019 Trainings

Elements of Effective Practice

9 a.m. - 3 p.m.
Tuesday, February 12
Tuesday, May 7
Wednesday, August 14
Wednesday, November 20
